JIMMY NATANIEL REQUENA LLORENTTY

Systems Engineer | AI Agents, Software Development, Oracle/PL-SQL and Agile Leadership

Santa Cruz de la Sierra, Bolivia | +591 75009349 | +591 62847755 | jimrequena@bolivianotech.com

LinkedIn: linkedin.com/in/jimrequena | Portfolio: bolivianotech.github.io

PROFESSIONAL SUMMARY

Systems Engineer with a Master's in Mathematical and Computer Engineering (specialization in Intelligent Flexible Systems) and 25+ years of experience in software development, Oracle/PL/SQL, agile leadership and, since 2023, AI agents. Scaled Scrum Master and Product Owner of multidisciplinary teams in Bolivia, the US, Chile and Mexico. University lecturer with 15+ years of teaching: now builds AI tools for UPDS faculty and administrative staff and co-creates its AI Diploma. Speaker on AI agents that monitor IaC in highly scalable systems.

CORE SKILLS

AI and agents: AI agents, Anthropic Claude, OpenAI API, Gemini, Claude Code, n8n, Make, LangChain/LangGraph, CrewAI, AutoGen (hands-on exposure), Prompt engineering, AI-assisted development, WhatsApp API, Dynamic QR codes for online payments, AI-DLC

Development: Python (intermediate), JavaScript, TypeScript, Node.js, NestJS, React, Laravel, Angular, PHP, Java, Flask, APIs REST, Microservices, WebSockets

Oracle and data: Oracle (administration and migrations), PL/SQL, Oracle Forms & Reports, SQL Server, PostgreSQL, MySQL, Supabase, Data Warehouse / Data Mart, ETL, Power BI, Azure Data Lake / PySpark, Tableau, SSRS/SSAS/SSIS, Oracle E-Business Suite

Cloud and infrastructure: AWS, Google Cloud, Docker, Git / GitHub (Issues & Projects), Serverless architectures, CI/CD, IaC (monitoring)

Management and agile: Scrum, Kanban, SAFe, Scrum of Scrums, Product Owner, ITIL 4, OKR, PMBOK, Jira, Azure DevOps, Notion, MS Project, Risk management, ClickUp, Confluence, Microsoft 365, BPMN/Bizagi, Visio, UML, AS-IS/TO-BE, ISO 9001

PROFESSIONAL EXPERIENCE

Systems Engineering Lecturer and Researcher — Universidad Privada Domingo Savio (UPDS)

Santa Cruz, Bolivia | 06/2025 – Present

- Has taught Programming I-IV, Software Development I-II, Software Engineering I-II, Databases II, Information Systems I-II, Artificial Intelligence I, Business Intelligence, Systems Auditing and Operating Systems II.
- Currently teaches Web Design I and Web Technologies I and II, with a focus on AI-assisted software development.
- Builds AI tools for UPDS faculty and administrative staff: Agente-Docente (generates teaching kits, offers an agent chat and maintains a knowledge base) and an exam generator for diagnostic and assessment tests across courses.
- Co-creates the UPDS Diploma in Applied AI in Business Environments, teaching administrative staff to use Claude effectively (modules defined; implementation under way).
- Speaker at the UPDS AI and Digital Technologies Congress (May 2026): "Operators that never sleep: intelligent agents for autonomous operational contingency", on AI agents that monitor infrastructure as code (IaC) in highly scalable systems.

Founder and Technical Lead (CEO) | QA/Automation Lead — BolivianoTech

Santa Cruz, Bolivia | 01/2021 – Present

- Runs a consultancy in agility, digital transformation and artificial intelligence, and the Aigentic line (AI agents for small businesses); plans, coordinates and delivers custom software, automation and systems-integration projects for clients in Bolivia and the US.
- Designs and orchestrates AI agents (perception, planning, tool use and memory) with Anthropic Claude, OpenAI and Gemini, integrated with databases, payment/QR gateways, CRMs and business systems, across a portfolio of 7+ in-house products.
- Builds multi-agent automation flows in n8n and Make for lead qualification, customer support, collections and scheduling, using Python scripts and REST APIs.

Project Coordinator — US-BSW, with IAdáptate Bolivia

Santa Cruz, Bolivia | 2026 – Present

- Daily coordination, schedule control and documentation of the proposal submitted to the US Department of State (hydrographic monitoring of the Tamengo Canal, with Platypus LLC).

Senior Scaled Scrum Master | Coordinating Consultant — NexusPatio Tech and MotoClick App

Bolivia / USA (remote) | 12/2025 – 08/2026

- Designed tracking boards, OKR indicators and ticket-handling flows under ITIL 4; assessed AI frameworks with RACI and maturity scales.
- AI-DLC (AI-Driven Development Life Cycle) experience: design and implementation of AI agents, integration with n8n and the WhatsApp API, and dynamic QR codes for online payments.
- Cut p95 latency by 40% by optimizing MySQL queries on EC2.

Software Architect and AI Consultant | Agile Team Facilitator — IN-ADVANCE (strategic partner of DAMA)

Santa Cruz, Bolivia (remote) | 02/2025 – 12/2025

- Designed AI agent architectures with OpenAI and applied vibe coding with Claude Code, Gemini and Codex: 60% shorter prototype-to-production time.
- Technical project manager and serverless architect of the OMNIA ERP and CorreSur CRM (~85 PostgreSQL tables, Supabase with RLS), integrating REST APIs with client systems.

Business Analyst | Project Manager and Scrum Master — Encora

Piura, Peru (remote) | 06/2023 – 04/2024

- Project Manager and Scrum Master of digital banking projects for the financial institution Caja Piura (upgrade of its mobile app, website and backoffice): led four simultaneous projects with multidisciplinary teams (frontend, backend, UI/UX, QA) running full agile ceremonies.
- Gathered and analyzed functional and technical requirements, identifying improvement and automation opportunities in a financial client's digital channels.

Product Owner | Business Analytics — Derco (now Inchcape)

Santiago, Chile (remote) | 01/2022 – 05/2023

- Product Owner of loyalty initiatives in Digital Marketing: 12 loyalty campaigns across four countries; defined and prioritized KPIs and management indicators and turned them into an actionable backlog.

Team Leader | Business Analyst — Oktana Corporation

New York and San Francisco, USA (remote) | 12/2020 – 12/2021

- Delivered an AI Contact Center (Dialogflow API) on Salesforce for AT&T, the end client of Google that requested the implementation.

Sales Solutions Manager and PMO | Project Manager | Test Leader — Huawei Technologies (account MIC G-KAD)

Santa Cruz, Bolivia | 02/2015 – 03/2017

- Managed telecom and security projects: a CCTV system for Cochabamba's citizen security management, the 2G-to-3G network modernization for Cooperativa de Teléfonos Santa Cruz (COTAS), IP School, antenna logistics for Millicom, and tracking and rollout of a mobile antenna for the Dakar Rally in Bolivia.
- Verified data integrity and business rules with SQL queries on Oracle, validating loads and migrations of the upgrade.

Project Manager | Scrum of Scrums — Digital Harbor

Cochabamba, Bolivia | 02/2017 – 12/2017

- Coordinated multiple teams (QA, development, support and administration) on a California and Maryland medical-professional enrollment portal under Scrum of Scrums, with executive reporting on metrics, risks and milestones.

Oracle Consultant: PL/SQL Developer, Database Administrator and Migration Engineer, Software Architect — Intersoft · Iteäm · Advantech (consulting)

La Paz and Santa Cruz, Bolivia | 2002 – 2012

- Oracle Forms and Reports development (RUAT; Fortaleza Insurance, along with Java) and functional analyst for the Oracle E-Business Suite ERP (Poultry Farm Sofía).
- Software architect on Visual Studio (Zurich–La Boliviana Ciacruz); database migrations and banking interfaces.

PL/SQL, Oracle Forms and Reports Programmer — Banco Mercantil Santa Cruz

Bolivia | 12/2000 – 2002

- Joined as a programmer and developed in PL/SQL, Oracle Forms and Reports.

OTHER EXPERIENCE

- IT VAS Prepaid Billing Specialist at Viva Nuevatel, Cochabamba (2018): value-added services billing and KPI dashboard for the SMS and VIVA App applications.
- BI Analyst and Data Warehouse support at TIGO/Millicom Bolivia (05/2013 – 02/2015): corporate Data Mart with SQL/PL-SQL on Oracle and SQL Server; launch of the TIGO Sports app and a Digital Marketing dashboard.
- PM of the Con4T–Talento Humano Corp. document management system.
- Program Manager and Agile Coach at Orbis Compliance LLC, California (05/2019 – 09/2019): implemented Scrum and OKRs across 4+ teams and coordinated testing for TÜV Rheinland certification.
- eCommerce Project Manager and billing, payment and audit analyst at ENTEL (01/2000 – 12/2005).
- Coordinator of the Axcel X project at Seguros y Reaseguros Fortaleza S.A. (today a consolidated bank).
- National Head of Systems at Bellcos.
- Regional Head of Systems at Emapa.

TEACHING

University and technical teaching since 1995: algorithms instructor at the institution Ayudantes de la Universidad and lecturer at the Naval Military School, while completing the Systems Engineering degree at UCB. Previous teaching at UTEPSA and Universidad Cumbre (databases, web programming); today a lecturer at UPDS.

EDUCATION

- Master's in Mathematical and Computer Engineering, specialization in Intelligent Flexible Systems — Universidad Católica Boliviana "San Pablo", La Paz
- Diploma in Information Technologies (earned during the Master's) — Universidad Católica Boliviana "San Pablo"
- Bachelor's in Systems Engineering — Universidad Católica Boliviana "San Pablo", La Paz | 2003 – 2004
