

# JIMMY NATANIEL REQUENA LLORENTTY

**Systems Engineer | AI Agents, Software Development, Oracle/PL-SQL and Agile Leadership**

Santa Cruz de la Sierra, Bolivia | +591 75009349 | +1 914 222 3263 | jimrequena@bolivianotech.com

LinkedIn: linkedin.com/in/jimrequena | Portfolio: bolivianotech.github.io

## PROFESSIONAL SUMMARY

---

Systems Engineer with a Master's in Mathematical and Computer Engineering (specialization in Intelligent Flexible Systems) and 25+ years of experience in software development, Oracle/PL/SQL, agile leadership and, since 2023, AI agents. Scaled Scrum Master and Product Owner of multidisciplinary teams in Bolivia, the US, Chile and Mexico. University lecturer with 15+ years of teaching: now builds AI tools for UPDS faculty and administrative staff and co-creates its AI Diploma. Speaker on AI agents that monitor IaC in highly scalable systems.

## CORE SKILLS

---

**AI and agents:** AI agents, Anthropic Claude, OpenAI API, Gemini, Claude Code, n8n, Make, LangChain/LangGraph, CrewAI, AutoGen (hands-on exposure), Prompt engineering, AI-assisted development

**Development:** Python (intermediate), JavaScript, TypeScript, Node.js, NestJS, React, Laravel, Angular, PHP, Java, Flask, APIs REST, Microservices, WebSockets

**Oracle and data:** Oracle (administration and migrations), PL/SQL, Oracle Forms & Reports, SQL Server, PostgreSQL, MySQL, Supabase, Data Warehouse / Data Mart, ETL, Power BI, Azure Data Lake / PySpark

**Cloud and infrastructure:** AWS, Google Cloud, Docker, Git / GitHub (Issues & Projects), Serverless architectures, CI/CD, IaC (monitoring)

**Management and agile:** Scrum, Kanban, SAFe, Scrum of Scrums, Product Owner, ITIL 4, OKR, PMBOK, Jira, Azure DevOps, Notion, MS Project, Risk management

## PROFESSIONAL EXPERIENCE

---

### Systems Engineering Lecturer and Researcher — Universidad Privada Domingo Savio (UPDS)

*Santa Cruz, Bolivia | 06/2025 – Present*

- Has taught Programming I-IV, Software Development I-II, Software Engineering I-II, Databases II, Information Systems I-II, Artificial Intelligence I and Operating Systems II.
- Builds AI tools for UPDS faculty and administrative staff: Agente-Docente (generates teaching kits, offers an agent chat and maintains a knowledge base) and an exam generator for diagnostic and assessment tests across courses.
- Co-creates the UPDS Administrative AI Diploma, teaching administrative staff to use Claude effectively (modules defined; implementation under way).
- Speaker at the UPDS AI and Digital Technologies Congress (May 2026): "Operators that never sleep: intelligent agents for autonomous operational contingency", on AI agents that monitor infrastructure as code (IaC) in highly scalable systems.
- Researcher on two institutional projects about AI in higher education.

### Founder and Technical Lead (CEO) — BolivianoTech

*Santa Cruz, Bolivia | 01/2021 – Present*

- Designs and orchestrates AI agents (perception, planning, tool use and memory) with Anthropic Claude, OpenAI and Gemini, integrated with databases, payment/QR gateways, CRMs and business systems, across a portfolio of 7+ in-house products.
- Builds multi-agent automation flows in n8n and Make for lead qualification, customer support, collections and scheduling, using Python scripts and REST APIs.
- Develops full-stack software (Laravel, Angular, React, Node.js) with Docker and Git/GitHub (Issues and Projects) across the full build-test-deploy cycle; uses Claude Code, Gemini and Codex for AI-assisted development.

### **Senior Scaled Scrum Master — MotoClick App / Nexus Patio Tech**

*Remoto | 12/2025 – 05/2026*

- Scaled agile coaching for two product lines: US delivery and smart hardware.
- Cut p95 latency by 40% by optimizing MySQL queries on EC2.

### **Software Architect and AI Consultant | Data Governance — IN-ADVANCE (socio estratégico de DAMA)**

*Santa Cruz, Bolivia (remoto) | 02/2025 – 12/2025*

- Designed AI agent architectures with OpenAI and applied vibe coding with Claude Code, Gemini and Codex: 60% shorter prototype-to-production time.
- Technical project manager and serverless architect of the OMNIA ERP and CorreSur CRM (~85 PostgreSQL tables, Supabase with RLS), integrating REST APIs with client systems.
- Led a data governance maturity assessment (Seguros Alianza): policies, roles, and access and information security controls.

### **Business Analyst | Project Manager and Scrum Master — Encora**

*Piura, Perú (remoto) | 06/2023 – 04/2024*

- Led four simultaneous digital banking projects with multidisciplinary teams (frontend, backend, UI/UX, QA) running full agile ceremonies: planning, refinement, review and retrospective.
- Gathered and analyzed functional and technical requirements, identifying improvement and automation opportunities in a financial client's digital channels.

### **Product Owner | Business Analyst | Team Leader — Derco (hoy Inchcape) y Oktana Corporation**

*Remoto | 2020 – 2023*

- Oktana: delivered an AI Contact Center on Salesforce, integrating Google Dialogflow, for AT&T, a Google client that requested the implementation.
- Derco: Product Owner for 12 loyalty campaigns across four countries on Salesforce Marketing Cloud; defined management KPIs and analyzed business processes.

### **Project Manager | Solution Manager | Test Leader — Huawei Technologies**

*Santa Cruz, Bolivia | 02/2015 – 03/2017*

- Test Lead for Phase 1 of the BSS (CBS 5.0 prepaid) for TIGO Bolivia: test strategy, process analysis and technical coordination between Huawei BSS and the core network, with multidisciplinary teams.

### **Scrum Master | Project Lead — Digital Harbor**

- Scrum of Scrums for the California and Maryland medical portals, coordinating multiple teams.
- Defined a roadmap for Digital Harbor that consolidated up-to-date reporting for all projects, both PAVE and Core.

### **PL/SQL Developer, Oracle Administrator and Migration Engineer, Software Architect — Banco Mercantil Santa Cruz · Intersoft · Fortaleza Seguros · RUAT · Zurich—La Boliviana Ciacruz**

*Bolivia | 2000 – 2012*

- Banco Mercantil Santa Cruz: joined as a programmer and developed in PL/SQL, Oracle Forms and Reports.
- Intersoft: Oracle database migrations for public entities FNDR and FPC (ABC Cost and Controller Info systems).
- ASOBAN: merged two databases on different versions, Oracle 8i and 9i.
- Senior Java and Oracle Forms & Reports developer (Fortaleza Seguros); Oracle Forms & Reports software engineer (RUAT); Visual Studio software architect (Zurich—La Boliviana Ciacruz); banking integrations.

### **OTHER EXPERIENCE**

---

BI Analyst and Data Warehouse support at TIGO/Millicom; Prepaid Billing Specialist at Viva Nuevatel; Project Manager of the ENTEL eCommerce platform; PM of the Con4T—Talento Humano Corp. document management system.

## TEACHING

---

University and technical teaching since 1995: algorithms instructor at the institution Ayudantes de la Universidad and lecturer at the Naval Military School, while completing the Systems Engineering degree at UCB; today a lecturer at UPDS.

## EDUCATION

---

- Master's in Mathematical and Computer Engineering, specialization in Intelligent Flexible Systems — Universidad Católica Boliviana "San Pablo", La Paz
- Diploma in Information Technologies (earned during the Master's) — Universidad Católica Boliviana "San Pablo"
- Bachelor's in Systems Engineering — Universidad Católica Boliviana "San Pablo", La Paz

## CERTIFICATIONS

---

AI Project Management Specialist · AI Risk Management Professional (AIRMPC) · CSPO (Certified Scrum Product Owner) · Agile Coach Professional (ACPC) · Scrum Master Professional (SMPC) · Software Project Leader (SPLPC) · Big Data Professional (BDPC) · CT-SM · Microsoft Power BI Data Analyst · BPMN / Bizagi

## LANGUAGES

---

Spanish (native) · English (B2–C1) · Portuguese (intermediate) · Hebrew (basic reading)
